Dear promoter,

You are about to have the pleasure of welcoming the merry gang of Criminal Animal!!!

So that they can give the very best of themselves on stage — and everyone gets the most rock'n'roll night possible — here is what you can set up to welcome them in the best possible way. Nothing extravagant here, if that reassures you.

First of all, you should know that CA is not just a hyper-powerful trio that flips crowds upside down — it is a team. That team counts 5, sometimes 6 members (we will confirm before we come), including, on top of the band, their manager/backliner, their sound engineer and sometimes their community manager. Please keep this in mind for what follows.

Upon arrival, it is important that the band can park in 3 reserved parking spots within 20 m of the stage, at least to unload the gear if there is no roadie — even if one or two cars have to be moved afterwards. The band is always more than happy to meet someone in charge of the organisation if possible. Getting to know each other over a drink is always a pleasure, if the timing allows. It is also the moment to receive any drink and meal tickets, etc.

The band needs a “dressing room” to change and have a minimum of privacy if needed. Nothing fancy: any separate room will do, but it is much better if it has direct access to the stage.

In this “dressing room”, please provide (* = essential):

- . 9 l of still water *
- . 1 crate of 24 “pils”-type or other light lager beers, cold *
- . 2 l of cola *
- . A fruit basket
- . Some sweets
- . 1 table + 6 chairs
- . 3 towels

A decent meal is also essential *!!!

We are not too demanding, but if we get fries at every show, climbing on stage will become complicated!

No fish!

Coffee may prove necessary — it all depends on the night before. Think about it ;)

There you go, nothing crazy. We just want to make people dance in the best possible conditions.

Thanks in advance!

CA.
